

National Register of Historic Places Amended Multiple Property Documentation Form for the Historic Resources of the Santa Fe Trail

The staff of the Kansas State Historic Preservation Office has been leading the effort to amend the MPDF with constructive feedback from Michael Taylor and Frank Norris of the NPS National Trails office and from the SHPO staffs of the five states through which the Santa Fe Trail passed. The National Register staff in Washington, DC has advised the Kansas State Historic Preservation Office to forward this document to the review board of each of the participating states for consideration and approval for forwarding to the NRHP. If approved, the SHPO of each state will sign the nomination as certifying official.

Electronic versions of the entire MPDF in sections is available for downloading from this website: www.kshs.org/trails .
